

ABSTRACT

5 A modified asphalt composition is provided comprising at least one
plastomer, at least one elastomer, at least one crosslinking agent and
asphalt. More specifically, a modified asphalt composition is provided
comprising an oxidized polyethylene, a styrene-butadiene-styrene block
copolymer, sulfur, and asphalt. A hot mix asphalt composition is also
provided comprising the modified asphalt composition and aggregate.
10 Processes for producing the modified asphalt composition and the hot mix
asphalt composition are also provided as well as articles produced from
these inventive compositions.
